

Check Out Our Tips on How to Design a Professional Business Card

By Alpha Press, Inc. | Custom Business Card Printing in Orlando, Florida

Start With a Clean, Effective Business Card Layout

Avoid clutter. A clean business card design helps your name, title, and contact details stand out.

Essential elements to include:

- Name and title
- Company logo and name
- Phone, email, website
- Optional: location or social media

Use Readable Fonts for Your Business Card

Fonts matter. Choose clean, professional typography that aligns with your branding and prints well on your business card.

Choose Brand Colors That Work on a Business Card

Make your business card stand out with colors that represent your business. Consistency with your logo and website builds brand recognition.

Pick Quality Paper and Finishes for Your Business Card

How your business card feels is just as important as how it looks. At Alpha Press, Inc., we offer premium finishes that enhance your brand:

- Matte, gloss, or silk lamination
- Foil stamping, raised ink, or embossing
- Heavyweight card stock and textured options

Include Only What Matters on Your Business Card

Focus on the must-haves - don't overload your business card with unnecessary info. Include a simple call to action.

Proofread Before Printing Your Business Card

Misspellings, wrong numbers, or broken links are common - and costly. Always double-check your

business card design before printing.

Use a Trusted Local Printer for Your Business Cards

Design is important, but quality printing is what sets your business cards apart. At Alpha Press, Inc. in Orlando, we make sure your business cards are sharp, professional, and print-ready.

We provide:

- Rush and same-day business card printing
- Expert help with design and file setup
- Affordable pricing and bulk discounts
